### Assa, for Adventures, and sustainable tourism

We are three friends, Inger, Thomas and Lahoucine, who met in Morocco, and make up their mind to strengthen their friendship through this common project, organizing travels and safaris to Morocco, this could pave the way to make the bilateral relationship between German and Morocco more stronger, and help Travelers to spend their stay comfortably, and locals to gain their lives through sustainable tourism, from 5 person to 8 person, by means of a comfortable transport land cruiser 4x4, or minibus of 8 seats to 14 seats to see the three rich and varied products, Desert for sustainable tourism, Mountains for adventures, Medina and Coasts for discovery and relax. - feedback

### Desert product

We can discover this part of Morocco, and see how strong the relationship between the individuals who are living along this territory from Figuig to Guelmim and the environment which is hard to live, however they create life through Bedouin life style under tents, or Oasis under palm trees and Kasbahs and ksour. The only means by we discover these specificities is by riding Dromedaries, or riding Mules or Donkeys, or trekking along these area through sand dunes or erg, through stony flat area called reg, sleeping either under Bedouin tents, or under Kasbah, or humble houses at locals.

### Mountain product

We can venture into valley along the Atlas, climbing peaks, Toubkal 4165m and passes to see Amazigh villages, and staying at locals in guests' houses, tasting locals' food, learning how to cook either in Rif range, Middle Atlas, High Atlas, or The Anti Atlas.

### Medina and Coasts

We can drive along the Imperial cities where can discover the contrast between modern and traditional lives, reflected in architecture, life styles and activities, staying either in luxury hotels, or staying in cheap hotels or houses. All these for your comfort, for your relaxing in some coastal cities in case of demand and see the fishermen life style.
